Course Description

This course examines some of the major political, social and economic changes that took place in Spain since the end of Francisco Franco’s dictatorship in 1975 until the present day. Hence, students will study Spain from an all-inclusive perspective, mixing different disciplines and theories with the aim of understanding Spain and its major characteristics, understanding the actual situation in its historical context.

Learning Objectives

By completing this course, students will:

At the end of the course students will be fully prepared to understand the actual Spanish political context and to face any document written on contemporary Spain. Students will be provided with a solid background to establish comparisons to the USA and other modern countries and to understand similarities and differences.

Course Prerequisites

None.

Methods of Instruction

During the first half of the course, most of the sessions will consist of lectures given by the professor using a PowerPoint. This dynamic will change after the midterm exam. One movie will be watched, and students will use the contents of the film to hold a discussion on the ideas expressed in the movie. Two sessions will be spent reading academic articles and discussing the different ways in which the authors understood the same topics and the same changes. Students will write a paper on the reading. Students will also have to give a presentation on a document assigned by the professor at the beginning of the course. The presentation will not be longer than 20 minutes and the students can use PowerPoint, Prezi or equivalent.

Assessment and Final Grade

1. Midterm Exam 25%
2. Final Exam 25%
3. Document Analysis 20%
4. Documentary 10%
5. Final Activity 5%
6. Class Participation 15%
Course Requirements

Midterm Exam

This exam evaluates the first half of the semester in which students were exposed to the basic elements of the semester as well as they will be instructed in some of the major topics of the subject. Hence, this exam will be based on both, class notes and the handout provided by the professor during the first weeks of the semester (available in digital format). Forty multiple-choice questions will be provided with five optional answers each (a, b, c, d, e), being only one of them the right answer.

Besides, there will be two questions to be answered in a limited space (5-7 lines) by the student. The two questions will be based on the readings (used as manual) assigned and provided by the professor.

Rules for the Exams (both midterm and final)

• No class notes allowed during exams.
• If students are caught cheating, the grade given for the semester will be 0.
• Answer the exams using pens, not pencils.
• Students will have 50 minutes per exam.
• The group will be divided into two groups to take exams.

Final Exam

The final exam will consist of 6 brief questions. Four of them will be based upon the books and the readings used in class, representing each one of these questions a 5%. Two other question will be based upon the movies watched in class, representing each one of these questions 2.5%.

The answers must be given in the space provided by the professor. None of the questions will represent more than half a page, the ideal space will be 4 or 5 lines each.

Documentary Analysis

During the semester two documentaries will be watch and discussed in class. As well as the documentaries four days will be spent discussing readings that students will read at home and focus specially on the questions provided by the professor before the reading or movie. During the first three weeks of the semester students will sign up for one of the readings or documentaries and they will be responsible for the questions asked that day. In group of five, the students will have to work on the specific material and be able to answer any of the five questions asked by the professor.

The session will be structured around the questions. The professor will ask one question to each of the students using an aleatory mechanism, so all the members should be able to answer any of the questions. This answer will be the source of information to study for the final exam. All the other students, the ones who are not members of the group, should read all the texts since the sessions will be structured around the ideas and the main topics exposed in the text or movie. Showing respect to the work of others is a key feature in these sessions. If students who are not answering any of the questions show any disrespect towards the work of others or don’t pay proper attention to the discussion will be penalized in the Participation section.

Documentary
Two documentaries will be watched in class during the semester. Once the documentaries are watched and discussed, students will be asked to answer two questions to evaluate the attention and interest paid during this activity. Each activity will be worth 5%. The questions asked about the documentaries will also be relevant for the midterm or final exam.

Final Activity

The last day of class there will be an activity based upon a movie or short reading. The student will have to answer a couple of questions to have this final 5%.

Class Participation

In some sessions, attendance and participation is required. For example, the evaluation days with tests or the final exam are mandatory for obvious reasons, but also the sessions based upon readings or documentaries. These sessions will offer the chance to students to participate in debates and discussions, so attendance is basic to get a grade.

In addition to that, it is crucial for students to respect their classmates work, so it’ll be of special importance to properly behave during the group sessions and to participate in the debate derived from those presentations.

Then, it is of an utmost importance to participate and cooperate in the development of the “managed sessions”. Specially for those students assigned leadership among the audience.

Every time that a student is caught doing one of the following activities this grade will be reduced in 3 points:

- Drinking coffee or tea in class
- Using the phone, tablet or computer
- Falling asleep
- Arriving late or leaving early
- Making the learning process complicated for other students

It is totally forbidden to take pictures in class. All the slides will be posted online but also, we must respect the privacy of both, the professor and the students.

Attendance

Students are expected to attend all scheduled class sessions on time and be prepared for the day's class activities. CIEE does not distinguish between justified or unjustified absences, whether due to sickness, personal emergency, inevitable transportation delay and/or other impediments. You are considered responsible of managing your own absences. Please keep in mind that exams, paper submission dates, presentations and any other course work deadlines cannot be changed.

No academic penalty will be applied if students miss up to 3 class sessions. If students miss up to 6 class sessions, students’ final course grade will drop 5 points out of 100 on the CIEE grade scale for each additional absence beyond 3 (for example a 95 will become a 90 if they reach the 4th absence, and an 85 if they reach the 5th absence). Students will automatically fail the course if they miss more than 20% of total class hours (i.e. if they exceed 6 absences).
For students who miss up to 20% of the total course hours due to extenuating circumstances, the Academic Director may allow for exceptions to the local attendance policy based on documentation such as proof of bereavement, religious observances, hospitalization etc.

Students arriving more than 10 minutes late to the class will be considered absent for a day.

N.B. Course schedule is subject to change due to study tours, excursions, or local holidays. Final schedules will be included in the final syllabus provided to students on site.
